
MINI

SPRITE

The fun-loving new Mini Sprite has a character just like its name. Nippy, extrovert.

Mayfair

The exclusive charms of the Mini Mayfair, carrying off its luxury with polish and panache.

MINI COOPER

The legendary appeal of the Mini Cooper 1.3i lives again, with a 1275cc fuel-injected engine.

T H E M I N I

*It's cool and classy.
Outrageously chic.
Utterly unique. The best fun
to be had on four wheels.*

If you want to drive a car that's like no other — then you'd better get behind the wheel of the Mini. It'll give you the best fun you could have with your driving gloves on. And it's also inimitably stylish — looking as good outside the Ritz as it does on your drive.

The Mini has captured the hearts of generations of driving enthusiasts. And small wonder.

This bold, agile little individualist has a rallying history that has made it a byword amongst high performance road cars. In the 1960s, Minis were carrying all before them, beating far larger and more powerful competitors time and time again.

*What's the secret of the Mini's
charisma? Above all,
an enormous sense of FUN.*

Today's Mini combines modern refinements with the same winning formula of three decades ago. All now are powered by the 1275cc engine — so the nippy performance, the incredible handling and the breathtaking cheek are there to be enjoyed.

The thoroughly modern Mini is more environmentally engineered, with an exhaust catalyst standard on all the latest models. And it's got style, in abundance. Choose from the fun-loving new Mini Sprite; or the exclusive charms of the Mini Mayfair. Or savour the power of a born winner in the driving seat of the 1992 Mini Cooper 1.3i; the legend lives again.

SPRITE

The Mini Sprite has rake-adjusting front seats for extra comfort, whilst the seat back folds forward to allow easier access to the rear compartment.

The sporty three-spoke steering wheel adds to the appeal of the driver's cabin.

Attractive full width wheel trims, black wheelarch extensions and chrome bumpers show off the nippy style of the new Mini Sprite.

*You can take a Mini
anywhere — it's a socialite
born and bred. No other car
has such savoir faire.*

W

hether this is your introduction to the Mini, or you've already experienced its charms, you ought to take a look at the new Mini Sprite.

It's got the style and chic to look good in the classiest company. With an elegant exterior set off by the distinctive 'Sprite' graphics. Gleaming chrome bumpers. Sporty, full width wheel trims. And a wide choice of bright, modern colours.

Inside, too, you'll approve of the decor — with attractive 'Harlequin' fabric seat facings and door casings. Upholstered front seat head restraints.

*The new Mini Sprite has a
character just like its name; stylish,
nippy, extrovert. Irresistible.*

And a colour-keyed interior. Options even include 4-speed automatic transmission for a really smooth and easy drive.

Start up the engine, and enjoy the note of the 1275cc Mini engine; lively pulling power that's also kinder to the environment, with a three-way exhaust catalyst as standard. It's kind to your pocket too, with up to 54.2mpg at a constant 56 mph*.

Take to the road — with the small car that loves driving as much as you do. Have fun; the Mini was made for it.

*See page 15.

*What other fashion has
such timeless appeal as
the Mini? It will always be a
car to be seen in.*

Slip into the driving seat of the Mini, and you're experiencing design brilliance that turned the motoring world upside down. When the Mini's shapely little body first rolled off the production lines, no other car offered so much space within such a compact, distinctive exterior. The Mini pioneered the transverse engine/front wheel drive design which is at the heart of space efficiency.

The Mini is only 10ft long (although it feels much bigger than that inside). Those neat proportions mean that you're going to be the one grabbing the

*You might forget your
first love affair,
but never your first Mini.*

last small space in the car park, thwarting larger and clumsier rivals. And you'll find parking a dream, the Mini's so easy to manoeuvre and see out of.

With the pinpoint accuracy of its steering and its tenacious grip on the road, the Mini makes other cars feel lumbering by comparison. Which is one reason why Minis have outsmarted their larger competitors in the snow and ice of countless Monte Carlo rallies. And of course those petite vital statistics will give you loads of useful extra space in the garage. The best things come in small packages. None more delightful than Mini.

The smooth driving style of four-speed automatic transmission is among the extra cost options offered by the Mini Sprite, and also the Mayfair.

Bold exterior graphics highlight the Sprite's stylish, cheerful identity.

The modern and colourful Harlequin interior trim on seat facings and door casings set the tone of the Mini Sprite's colour-keyed interior. Fully upholstered front head restraints are part of the specification.

SPRITE

*Mini. The embodiment
of chic and cheek.*

*A personality as large as the car itself
is small*

Every Mini has a character and charm all of its own. Never more so than the Mini Mayfair. Its cool, classy, elegant.

Cast your eyes over the gleaming coachwork, with a chrome-effect grille, chrome door handles and bumpers. Body colour door mirrors add a further dash of style. Attractive wheel trims give the finishing touch.

Slip inside. Tinted glass shades the sumptuous passenger cabin. The seats are trimmed in opulent Chevron velour.

*The Mini has to be
the most eloquent expression of
'Small is Beautiful'*

On the road, you'll have the company of a high quality in-car entertainment system. The electronic stereo radio cassette player has a host of convenient features, such as auto reverse for the cassette player. While a really superb music system with Dolby and Radio Data System is optional at extra cost.

The lively 1275cc engine will be music to your ears too. It's fitted with a three-way exhaust catalyst that substantially reduces all three of the major pollutants emitted from petrol engines. The Mini was the first British small car in the UK to be fitted with a catalyst as standard, but then it's always been an innovator.

Mayfair

The chrome-effect grille, chrome door handles and chrome door mirrors on the Mayfair would be standard on the style. Optional alloy wheels are fitted to the model shown here.

An electronic stereo radio cassette player with four speakers is standard on the Mini Mayfair.

Mayfair

*All the values that the
Mini stands for — particularly
efficiency — are more important
today than ever before.*

W

hen the Mini was first designed, it revolutionised the idea of the small car. Not only because, for its length, it offered so much interior space. But also because virtually nothing about the Mini had ever been attempted before. The gearbox, for example, was mounted under the engine and shared the same lubrication, in order to keep the car's width to a minimum. Now, this design is a commonplace, but it certainly wasn't in 1959.

The Mini's handling too was years ahead of its time. With the tractional benefits of front wheel drive,

*Few cars inspire such
affection as the Mini.
None has such nonchalant charm.*

a 'wheel at each corner' design and almost unbelievably responsive steering, the Mini was a natural for racing and rallying.

The 1275cc engine responding so eagerly to the throttle is fundamentally the same extraordinary power unit that carried hordes of Minis to victory in the past. The A-Series engine had the inherent robustness which allowed it to be almost endlessly developed. The 1275cc unit first saw the light of day in 1964. It won the first time it was raced.

A locking fuel filler cap secures the petrol tank. Opening rear quarter lights give additional ventilation.

Twin body colour door mirrors are standard on the Mini Mayfair, making manoeuvring even easier.

Twin column stalk controls give quick and easy access to indicators, horn, headlamp dip/flash (left) and wipers and washers (right).

The Mini's controls are beautifully straightforward, with all switchgear within easy reach.

The legendary appeal of the Mini Cooper lives again - now with Rover's green engineering.

In the early 1960s, the racing Minis caught the eye of a well-known Formula One racing car constructor called John Cooper. A legend was in the making. The first batch of 1000 Mini Cooper 'S' models had a 997cc twin carburettor engine, tiny 7" front disc brakes and a close ratio gearbox. They were born winners.

Today's Mini Cooper 1.3i was developed by Rover Cars with John Cooper, naturally. It has the 1275cc power unit that became famous in Cooper 'S' models, with the modern refinements of single-point

The Mini Cooper 1.3i. One look, and your heart beats a little faster. One drive, and there's no going back.

electronic fuel injection, and a three-way controlled exhaust catalyst. The performance is as breathtaking as ever, beating all small car competitors with a 0 - 60 time of 11.5 seconds*.

The familiar hallmarks are all there - the bonnet stripes matched to the roof colour; the front auxiliary driving lamps. Sports alloy wheels and low profile tyres give an edge to roadholding that has outmanoeuvred far larger, more powerful cars on the circuit.

* Manufacturer's data. See page 15.

The leather bound steering wheel bearing the famous Cooper badge is part of an interior that blends traditional sporting style with modern luxury.

10

A Mini Cooper driven by Faddy Hupkirk with Henry Liddon won the 1964 Monte Carlo Rally. It was the beginning of a career that was to make racing history, with the indefatigable Coopers fighting their way to the front time after time against formidable opposition.

11

Cooper

*You don't have to be a
racing driver to understand the
Mini Cooper's winning qualities.
Just drive — and enjoy.*

Slip into the driving seat of the 1992 Mini Cooper 1.3i, and discover a car that was born to be driven. The leather-trimmed three-spoke steering wheel bears the Cooper badge. A tachometer keeps you in touch with the powerful 63PS 1275cc engine.

*The Mini. It's the ultimate
individualist. Driven by people who
know how to have fun.*

Traditional style is in perfect harmony with modern refinements. The seats are trimmed in a sporty combination of 'Lightning' fabric and leather, with contrasting red piping — colours which are echoed in the carpet and door casings.

Start up the 1275cc fuel-injected engine. And discover the ultimate Mini. A legend more powerful than ever.

Seat facings in 'Lightning' cloth and leather with red piping are complemented by the red cut pile carpet.

The power of a living legend: today's Mini Cooper 1.3i has all the performance and charisma of its famous predecessor.

GENERAL INFORMATION (Applicable to all models)

Dimensions: **A** Height 53.25in. (1.35m).
B Wheelbase 80.1in. (2.04m).
C Length 120.25in. (3.05m).
D Width (excluding door mirrors) 55.5in. (1.41m).
E Width (including door mirrors) 61.3in. (1.56m) Mayfair and Cooper 1.3i.
Width (including door mirror) 57.4in. (1.46m) Sprite.
Turning circle 28.5ft. (8.6m).

Luggage capacity: 4.1 cu. ft. (0.12 cu.m.)
Fuel tank capacity: 7.5 gals. (34 litres).
☆ Fuel: The use of Premium (95 RON) unleaded fuel is recommended.
Petrol of a higher octane can be used. Catalyst equipped models **must** use unleaded fuel.
Servicing intervals: 6 months/6,000 miles whichever occurs first.

RECOMMENDED TOWING WEIGHTS

Model	Kerbside Weight	Max. Towing Weight (2-up)	Tow Hitch Down Load	Roof Rack Load
Sprite	685kg (1510lb)	405kg (895lb)	35-45kg (75-100lb)	40kg (90lb)
Sprite Automatic	710kg (1565lb)	405kg (895lb)	35-45kg (75-100lb)	40kg (90lb)
Mayfair	685kg (1510lb)	405kg (895lb)	35-45kg (75-100lb)	40kg (90lb)
Mayfair Automatic	710kg (1565lb)	405kg (895lb)	35-45kg (75-100lb)	40kg (90lb)
Cooper 1.3i	695kg (1530lb)	405kg (895lb)	35-45kg (75-100lb)	40kg (90lb)

Note: The maximum towing weights shown above are to an industry defined standard and represent the maximum weight that can be towed by the vehicle, allowing it to restart efficiently on a 12% gradient (1 in 8.3 approx) at sea level with 2 occupants 68kg (150lb) each. Any extra weight, such as luggage and/or additional passengers, should be deducted from the maximum towing weight. Always fit Rover officially approved towing attachments and accessories, available from your Rover dealer. These are the only ones approved for use on Rover cars.

WARRANTY

In your first 12 months of ownership you'll have the protection of the most comprehensive first year warranty in the industry.

Like most warranties, you get 12 months unlimited mileage cover. But Rover first year warranty doesn't stop there.

You also get, completely free:

- A six year anti-corrosion warranty.
- A three year cosmetic paint warranty.
- AA Membership benefits—AND half price rates for other members of your household.

Those Membership benefits include:

- AA Roadside Assistance, AA Relay and AA Homestart. For complete reassurance in any emergency situation- even for all the annoying little things that happen, like losing your keys, or running out of petrol. In addition, Roadside Assistance is also provided throughout Continental Europe.

Complete peace of mind is yours during the first year of Rover motoring. And the protection goes on. For the second and third year of ownership, Rover Optional Warranty means that you can continue to enjoy the reassurance of trouble-free motoring.

With Rover Optional Warranty, for a very modest cost, the vast majority of your car's components are insured against most mechanical and electrical problems, including the cost of labour. And it does a great deal more too:

- Your AA membership benefits continue; Roadside Assistance, Relay and Homestart (including Roadside Assistance in Europe).
- Car hire contributions if your car is off the road for more than 24 hours.
- No limit to the number or value of claims. And no excess charges to pay.

It makes a lot of sense to let us do the caring while you enjoy the driving.

FINANCE AND INSURANCE

ROVER FINANCE LIMITED offers a comprehensive range of funding packages for Rover Cars.

Facilities designed especially for the business user include:

- Hire Purchase.
- Lease Purchase/Conditional Sale.
- Contract Hire.
- Contract Purchase.
- Finance Lease.

For the location of your nearest finance specialist, telephone FREE on 0800 626 545.

Insurance

Motor Insurance for your Rover car is available through ROVER FINANCE INSURANCE. The *Coverplus* policy, which is recommended by the Rover Group, is arranged by Bain Clarkson Limited — International Insurance Brokers, underwritten by a major insurance company and is exclusive to Rover Cars.

Coverplus is specially designed to provide wide-ranging cover, including:

- High quality cover at competitive premiums
- Personal Accident benefits
- Protected No-Claim Discounts
- Legal Expenses Protection
- Motor Helpline Service
- The option to extend cover for Business Use.

You can take advantage of this secure and reliable insurance whether or not your vehicle is funded through Rover Finance.

For more details, a no-obligation quote, or even immediate cover, simply telephone on 0883 347000.

Rover Finance Limited is a member of the National Westminster Bank Group
